# BOLINAS HEARSAY

50¢  
inc. tax

Cubenz "Curly"

## INSIDE TODAY'S XTRA THICK, (POSSIBLY) BIGGEST HEARSAY EVER:

- Lift-Pumps, Hazardous Trees and Classic Blind Leaks:  
February BCPUD Meeting minutes ←
- Bill Quist's Cameras: *Stolen!* ←
- Dr. Robert Grove: Bolinas Boyhood, Bolinas Ministry ←
- 45 Years of Lloyd Kahn's Shelter Publications ←
- "Know your Bo" with Nate Siedman ←
- Rafferty's Homemade Macaroons Recipe ←
- "Vaxx Faxx" with Stephen Simac ←
- Goat Team Gathering ←

Wednesday, April 6

**DALE POLISSAR TRIO**

w/ Si Perkoff & Piro Patton @ Panama Hotel, SR, 7-10pm

Saturday, April 9

**TAKING ALCATRAZ**

Movie about the 1969 Native American occupation featuring many historical photos by Ilka Hartmann. Tiburon Playhouse, 1:30pm.

## WHAT'S HAPPENING??

Friday, April 1

**APRIL FOOLS' DAY**

don't believe anything you're told

**B-CAST**

Bolinas/Stinson Children's After School Theater, Bolinas Community Center, 7 pm \$10 adult, \$5 youth

**SOMETHING LIKE SEDUCTION**

Live reggae-rock @ Smiley's, 9pm, cover.

Saturday, April 2

**ZEN MEDITATION** 9am-2pm St Aidens; dharma talk 1030 by Layla Smith.all welcome for all or part.

**OPENING RECEPTION: GOATEAM GATHERING**

Collective art show @ Gospel Flat Farm Stand gallery, 4-9pm

**OPENING RECEPTION** For three new exhibits @ Bolinas Museum, preview w/ artists 2-3pm, reception 3-5pm,

**WHITING TENNIS** singer-songwriter museum courtyard, 4pm

**B-CAST** performances at 3pm and 7pm, community center.

**STEVEN GRAVES BAND**

Live California country music @ Smiley's, 9pm, cover

Sunday, April 3

**SHAYNE SKOWER PHOTOGRAPHY**

Bolinas Gallery, Opening Sunday afternoon, runs through April.

**KARAOKE AT THE COMMUNITY CENTER** All ages fundraiser for the Bolinas Bay arts scholarship fund, plus dinner: bring salad or dessert to share. 5pm \$5-10

## HAPPY HAPPY BIRTHDAY!!!

April 2:

**Ed Dorn  
Odessa Rhine**

April 3:

**Michael Wolfe  
Ru Axel Bradford-Ebey  
Don Boekelheide  
David Ainley**

April 4:

**Bill Quist  
Joe Safdie  
Chris Fontan  
Diana Palomares  
Bob Densmore  
Sonya Amoroso  
Deborah Kasel  
Lourdes and Estella Mora-Lopez**

April 5:

**Amal Nasra  
Adhita Zahara Dwaileebe  
T. Molly Patterson**

## TODAY'S HEARSAY BROUGHT TO YOU BY:

((JEFF MANSON: PASTE-UP)))

((KATHLEEN O'NEILL: ADS)))

((ALEX BLEEKER: PRINTING AND DISTRIBUTION)))

((MICHAEL RAFFERTY: ONLINE BUREAU CHIEF)))

& You: Everyone is a Reporter!

**Bolinas Museum Opening New Exhibitions****Saturday, April 2<sup>nd</sup>****Preview talks 2 PM / Reception 3-5 PM****Courtyard Concert: Whiting Tennis 4 PM**

Main Gallery

***Make/Shift Shelter: Jay Nelson, Whiting Tennis & Eirik Johnson***

Protection from the elements is a fundamental human need and can take many forms. With muses ranging from outhouses and hunting cabins to camper shells and Buckminster Fuller the three contemporary artists featured in this exhibition each find inspiration in shelters born out of a necessity and made by hand with simple and often salvaged materials.

Photography Gallery

***Eirik Johnson: The Mushroom Camps***

Each year in the forests of Oregon's Cascade mountains, commercial mushroom hunters erect makeshift seasonal campsites from branches, twine, and plastic tarps to serve as shelter as they forage for precious Matsutake mushrooms. Seattle-based photographer Eirik Johnson's Mushroom Camps series documents these temporary encampments and follows the journey of the elusive Matsutake from the quiet volcanic forest floors of Oregon to the densely populated commercial markets of Tokyo.

Coastal Marin Artists Gallery

***Lloyd Kahn: Driftwood Shelters***

Bolinas resident Lloyd Kahn has been documenting alternative shelters around the globe for over forty years. Founding editor-in-chief of Shelter Publications, Inc. and former Shelter editor of the Whole Earth Catalog, Kahn is also an author, photographer, and pioneer of the green building and green architecture movements. Selected from Kahn's rich archive, this exhibition features photographs of imaginative, functional, and otherworldly driftwood shelters constructed along the California coastline from Marin County to Humboldt County.

**Free Courtyard Concert with Whiting Tennis**

Celebrated Seattle artist Whiting Tennis is also a talented musician whose influences range from Hank Williams, The Velvet Underground, and Neil Young to Nick Cave, Sparklehorse, and Modern Lovers. Enjoy beautifully sparse ballads and steamy guitar riffs during the opening reception for the *Make/Shift Shelter* exhibition featuring Tennis' artwork.

Everyone is invited. Interesting curator and artist talks at 2 PM, Reception begins at 3 PM and the music begins at 4PM.

-Elia Haworth

**AMANDA ROSS**  
SKINCARE

**New Extended Hours  
& New Treatment Space**

**415.858.4353**

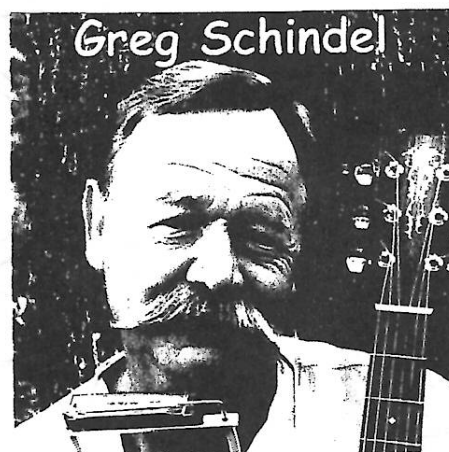

Treat yourself or a loved one to  
a nourishing facial in our beautiful  
new garden sanctuary.

Available by appointment  
(not limited to Thursdays anymore!)

## KNOW YOUR BO

California has been claimed by nearly all who have believed they were the first to discover it. The Spanish attempted to colonize what they called Alta California as early as the 16<sup>th</sup> century. The Russians were exploring the North Pacific in the 17<sup>th</sup> Century and by 1812 had built Fort Ross in what is now Sonoma County. Just ten years later, Mexico took control of what the Spanish had claimed. By 1848, the United States took that same land from Mexico with the signing of the Treaty of Guadalupe Hidalgo that marked the end of the Mexican-American War. Alta California was later subdivided into the American states of Nevada, Arizona, Utah, Colorado, Wyoming and California and a new wave of migration came west.

In 1850, just 60 miles south of the Russian outpost of Fort Ross, Rafael Garcia held a large Mexican land grant. He leased "the privilege of building lime kilns" to two gold-rushing pioneers, James Shorb and William Mercer, in the area of what is modern-day Olema. The deal was this: Shorb & Mercer would pay 4 dollars per tree cut for timber or fuel; no tree over 3 feet in diameter at its base could be cut; and 1/3 of all the lime burned would go to Garcia. In exchange, Garcia would furnish oxen, carts and Native American labor to haul all the lime to the Bolinas lagoon and provide assistance loading the lime onto ships there. The business was short-lived and the kilns were only fired a few times. Today, the kilns remain on the east side of Olema creek about 5 miles south of Olema and 100 yards west of the highway.

The above information was collected in large part from:

### Righting a Wrong

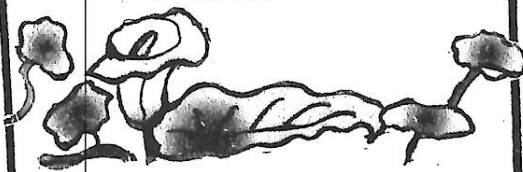

Our longtime piano virtuoso, roving photographer, and dear friend Bill Quist recently had both his cameras stolen. How disturbing it is when a good person gets slammed like this! After all the benefits he's played for local causes and great photos he's handed us, now comes our opportunity to return the favor. Please help Bill replace his cameras by writing him a check and sending it to us, and we will then deposit them together into his checking account. Also let us know whether you want your contribution to be anonymous. We proposed this idea to Bill and he is humbly grateful. Thanks for your help!

Don Smith and Jane Mickelson

### "Dr. Robert Grove: Bolinas Boyhood,

**Bolinas Ministry"** is a short 12-minute video documentary just posted on YouTube of the life of Dr. Robert Grove, who retired last year as pastor of Calvary Presbyterian Church in Bolinas. "Dr. Bob" spent ten summers in Bolinas as a boy in the late 1930s and early 1940s, and returned after retirement as a Presbyterian minister to serve another 15 years at Calvary Presbyterian. The video features his reminiscences of the town of Bolinas from his early years: the story of his life journey to the ministry and his work in Bolinas: interviews with members of the congregation featuring B.G. Bates, Gloria Conradi, Sharon Glasson, and Gary Marseilles; and excerpts of his last sermons, made on Palm Sunday and Easter Sunday 2015. Longer versions of the video will be made available to the Reference Department of the Bolinas Branch of the Marin County Library. The video can be found by entering the title on YouTube, or the terms "Bolinas Boyhood" "Bolinas Ministry" on Google. The video was made by Arthur George of Sebastopol.

— Arthur George

## "Goateam Gathering 2016"

Beginning April 2nd and running through April 29<sup>th</sup> a collection of artwork by West Coast artists, will open at Gospel Flat Farm Stand Gallery; the opening reception will be held this Saturday, April 2nd, 4 pm to 9 pm.

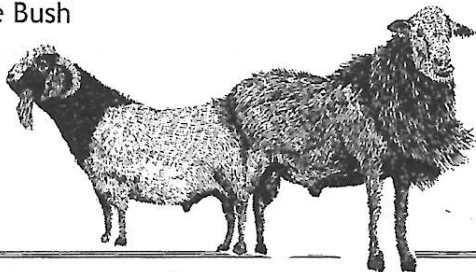

The exhibition is curated by Brittany Cole Bush, local shepherdess and co-founder of Shepherdess Holistic Hides, and will feature artwork by Pacific Northwest Photographer, Kevin Horan along with local artists including, Van Waring, Charlie Callahan, Ashley Eva Brock plus wider Bay Area artists: Obi Kaufmann, Monica Caniloa, Rob Moss Wilson, , Willis Bigelow, Myrrhia and Tehya Shea.

The show is mixed-medium art show of photography, textiles, installation and paintings, in the theme of Goats, Grass, Grazing and all things Good upon the Land. The show is to bring awareness, educate and celebrate New Pastoralism, the work of land stewardship with livestock to sequester carbon, support healthy soil and water, good food and fiber and the pursuit of happiness.

The art show is in concert with the fundraising effort of Brittany Cole Bush, a modern-day shepherdess as she investigates the advent of a new Shepherding School of the West, working towards viable vocations in a new era of livestock management and land stewardship. Stay tuned for more events throughout the month to learn and celebrate regional works by other 'new pastoralists' raising animals in a regenerative manner, supporting a healthy food system and restorative land management.

Also, if you're looking for a stimulating night over-the-hill, renowned regenerative agricultural Farmer Joel Salatin will be speaking at an intimate supper talk in Oakland in behalf of BCB on April 17th. Learn more at [pizzaioloakland.com](http://pizzaioloakland.com) or [brittanycolebush.com](http://brittanycolebush.com).

-Brittany Cole Bush

### Rafferty's Home Made Macaroons

Preheat oven to 350 degrees, Thoroughly combine 14 ounces (1 package) of sweetened shredded coconut with a 14 oz. can of sweetened condensed milk (Eagle Brand). Add a little salt and 1 tablespoon of vanilla extract. Mix thoroughly. Fold in 2 egg-whites beaten to stiff peaks.

Transfer by heaping tablespoons to two parchment-covered cookie sheets. Makes about 24 cookies. Bake for about 30 minutes, more or less. Do not eat if you have loose fillings in your teeth.

submitted by Michael Rafferty

APRIL AT THE GOSPEL FLAT FARM STAND  
-a Collective Art Show-

## GOATEAM GATHERING - 2016 -

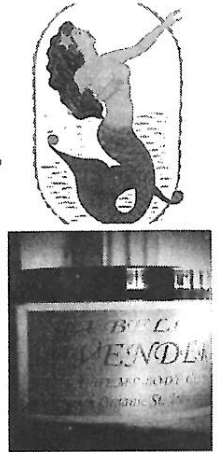

of Goats, Grass, Grazing &  
All Things Good Upon the land

Supporting the education & awareness  
of modern-day pursuits of New Pastoralism,  
creating solutions to issues of carbon, climate,  
healthy soil & water, good food & fiber  
working on the land with animals.

By local folks and faraway friends in support  
of local modern-pastoral maiden, BCB Shepherdess.

Opening April 2nd, 4-9pm / Closing April 29th, 4-9pm

### GETTING THE D.T.'s

Nothing can rumple  
Donald Trumple.  
He may be laughable,  
But he's unflappable.

What he said today  
May be reversed tonight--  
But meanwhile headlines!,  
Great sound bite.

This guy's strong suit  
Is getting attention.  
His regard for the truth?  
That we won't mention.

This you can say  
About D.T.'s way:  
No matter what he abuses,  
He astounds and amuses.

Nothing can rumple  
Donald Trumple.

--Dale Polissar

## CELEBRATING 45 YEARS OF SHELTER PUBLICATIONS and LLOYD KAHN

Bolinas Museum is pleased to celebrate 45 years of Shelter Publications with a special installation of books in the current exhibitions *Make/Shift Shelter* opening Saturday, April 2 from 3-5 PM.

Shelter Publications has been publishing high-quality, soft cover books in Bolinas for over 45 years. Founded by local resident Lloyd Kahn, it operates out of a small studio set in a homestead vegetable garden, with four Apple computers hooked into the world. Each book is created from scratch, often starting with only an author's idea. One of the very few local businesses, Shelter's talented team of employees do all aspects of book production in-house – editing, design, typesetting, scanning, graphics enhancement, and color corrections.

Lloyd Kahn, editor-in-chief of Shelter Publications, Inc., is a pioneer of the green building and green architecture movements. He has been promoting unusual handmade houses for some fifty years. He built his own home in Bolinas in 1971, with wood recycled from torn-down Navy barracks at Treasure Island and windows from chicken coops in Petaluma. His shake-covered geodesic dome was featured in *Life* magazine.

Born and raised in San Francisco, he studied economics at Stanford and served in the U.S. Air Force. In the 1960s he became a builder and worked with Stuart Brand as Shelter editor for the *Whole Earth Catalog*. The catalog was a seminal publication for America's counterculture and back-to-the land movements. Soon Lloyd published his own two books on dome construction. Then, to broaden the awareness of what is possible, in 1973 he published *Shelter*. The large format book is crowded with astonishing imagination, resourcefulness, and the exuberance of human habitats around the world, including in Bolinas. Now a classic, *Shelter* has sold over 300,000 copies.

Today Shelter Publications is a respected independent publisher of many books on building and fitness. *Stretching* by former Bolinas resident Bob Anderson has sold over 3 1/2 million copies worldwide, in twenty-three languages. Resulting from Lloyd's adventures to find remarkable handmade, tiny or traveling houses, Shelter's recent books are treasure troves of images documenting alternative building types and independent builders. The next book will be released in early 2017.

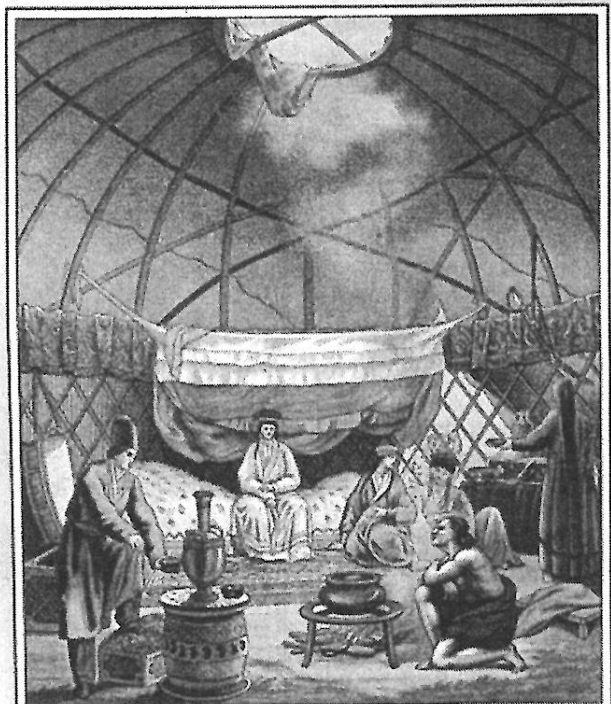

Lloyd, is also an author, skateboarder, outdoorsman, competitive runner, traveler and a photographer. His photography exhibition *Lloyd Kahn: Driftwood Shelters* in Bolinas Museum's Coastal Marin Artists gallery will be part of the opening event on April 2. Everyone is invited. Lloyd's books and unframed prints of his photographs will be available for purchase. During the April 2 opening reception, Lloyd will be available to sign copies of his book. Please join us in celebrating Shelter Publications and all the people who work with Lloyd to produce such original and satisfying books.

-Elia Haworth

## READING TO JOHN

On Tues. 4/5 at 10 am on KWMR (89.) I'll read Virginia Woolf's "Lappin and Lapinova." Newlyweds create a nutty, sweet fantasy that turns out to mask the unfortunate underpinnings of their union. I'll end with reviews.

--Neshama Franklin

**SHELTER**

## Dear Community Members

Election time is near! As important (and entertaining) as National Politics presently are with the Donald, Hillary and Bernie, here in Bolinas we should also be concerned with our County Supervisor race.

Steve Kinsey is stepping down from office. As we have witnessed over the years, his support has been a tremendous asset for us in West Marin and most certainly Bolinas. The recent Terrace Avenue road repair is a perfect example: Steve was instrumental in getting it engineered, managed and completed. Our next supervisor must have the same knowledge, understanding, and support that Supervisor Kinsey gave us.

Which leads us to DENNIS RODONI from Point Reyes. Dennis is the rock-solid choice to have as Supervisor for the Fourth District. He is a West Marin native with roots going back generations. Dennis is active on numerous boards, a current North Marin Water District director, and has impeccable environmental credentials. More than any other candidate, he understands the character and needs of West Marin. We have known him as someone imminently approachable, reasonable, and with a gift for looking at things fairly from all perspectives. In our opinion he is a terrific candidate and will be an excellent supervisor.

Both of us urge your support for Dennis Rodoni by a donation to his campaign and vote for him at the June election...

**DENNIS RODONI for Supervisor,**  
PO Box 872, Point Reyes Station,  
CA 94956

Thanks, Ralph Camiccia, Rudi Ferris

**Bolinas Community Public Utility District**  
**A Regular Meeting Of The Board Of Directors**  
**February 17, 2016 270 Elm Road, Bolinas**

**1. Call to Order.**

7:33 p.m.

**2. Roll.**

Directors Amoroso, Comstock, Godino, Siedman and Smith present; director Siedman presiding.

**3. Manager's Report.**

-- *Update on the Terrace Avenue Bluff Stabilization Project.*

Staff reported that the installation of this project is complete and the road was reopened at the end of January. The County's Department of Public Works is wrapping up issues with neighboring property owners for restoration of certain areas of their property affected by the project. It is expected that there will be funds remaining (from the monies donated by the community) after the payment of all costs of the retaining wall replacement project to apply toward the next phase of the full bluff restoration.

-- *Update on the Wharf Road Lift Station Pump Replacement Project.*

Brelje & Race Consulting Engineers have completed 75% of the drawings and technical specifications for this project which are under review by staff; staff hopes to have the project out to bid within the next two weeks.

-- *Update on the BCPUD Chlorine Disinfection Byproduct Reduction Project.*

Staff anticipates that a report with a recommendation that the district proceed with coagulation of its raw water prior to filtration to reduce chlorine disinfection byproducts will be submitted for the Board's consideration at the regular monthly meeting in March. The district's Operations Plan for its water treatment plant also will be updated as part of a comprehensive submittal to the district's regulators at the State Water Resources Control Board ("SWRCB"). The report also will include a budget of the anticipated costs to implement coagulation.

-- *Update on BCPUD/BFPD Survey of Obstructions and Encroachments in the Public Rights-of-Way on the Bolinas Mesa.*

Staff noted that a letter of support from a Big Mesa resident was sent to the district (evidently prompted by the article in the Pipeline newsletter) in favor of enforcing the removal of new obstructions and encroachments in the public rights-of-way.

With respect to water operations, staff reported that water consumption in the district was up somewhat significantly on the mid-Mesa for the quarter ending in January. Staff is aware of one major leak (water loss) at a property in this section of the Mesa which is one reason for the spike in consumption. Staff intends to investigate further as this was a relatively rainy quarter.

Staff reported that the State Water Resources Control Board ("SWRCB") enacted another emergency regulation recently that may have implications for the BCPUD because it pertains to the reporting and measurement of diversions from the district's water

sources. The generator serving the Woodrat Water Treatment Plant has been repaired and is back on-site; the temporary rental generator has been returned. Next Tuesday, staff has scheduled a training day for the new shift operators at the plant and the district's risk management consultants from ACWA/JPIA will be on-site next Thursday.

A tentative schedule has been set to proceed next week with the removal of the hazardous trees along Olema-Bolinas Road and over the district's sewer force main, subject to confirmation from the tree company late this week based on an assessment of the site conditions. Staff will notify the community via the Hearsay and via social media as there will be traffic delays when some of the work is in progress. The work is estimated to require two weeks to complete.

On the wastewater side of operations, staff focus is on the lift station pump replacement project which, as noted above, will be out to bid in the next few weeks. Staff also is working with Oswald Green Technologies on a master improvement plan for the wastewater treatment plant (i.e., sewer ponds); at present, the engineers are analyzing current energy demands at the plant in order to design the optimal pump station upgrade and other treatment efficiencies.

The Board reviewed correspondence sent and received since the last regular Board meeting, including notices sent out to customers who have exceeded the maximum quarterly amounts established on their expanded water use permits, and a letter from the district to Marin LAFCO with final comments on the Countywide Water Study.

-- *Drainage Project Manager's Report.*

The Board received a drainage report from Lewie Likover.

**4. Community Expression.**

None.

**5. Request to Remove Hazardous Tree from 200 Block of the Nymph Right-of-Way near Cherry Road (S. Robertson).**

Sally Robertson presented an estimate of \$1500 to trim the hazardous limbs off of two trees in the 100 block of the Nymph right-of-way; she said that she is willing to contribute 25% of this cost and clarified that she is not asking for the trees to be removed entirely, but rather for the trees to be trimmed.

Discussion ensued among the Board members and, in response to questions, staff recommended the trees be removed rather than trimmed to eliminate the hazards and ensure the district is not asked in the future to participate in the trimming or removal of the trees. Director Godino asked if Sally received an estimate for removal of the trees and she said that she did -- \$3,500. Sally emphasized that she does not wish to have the trees removed entirely due to privacy concerns and she promised never again to request any involvement from the BCPUD with regard to the trees if the Board approves the trimming request tonight. Director Godino said that the problem has arisen because PG&E sends crews in to remove branches that threaten the power lines, as occurred here, but this leaves the trees in an unbalanced or hazardous state. Sally agreed and said she tried to persuade PG&E to take responsibility for the

*Minutes cont. on p. 7*

Cont. from p. 6

trees but was unsuccessful. Director Siedman said the BCPUD is willing to participate in a project to remove the hazardous trees entirely, but since it is Sally's choice to have them trimmed, if the BCPUD agrees to this, she must commit to no further requests for the BCPUD to contribute in any way toward these trees. Sally said that is acceptable to her.

D. Smith/V. Amoroso all in favor  
approving the removal of the hazardous limbs on the two trees in the Nymph right-of-way at a cost of \$1,500, on the condition that Sally Robertson contributes 25% of the cost and agrees not to seek any further contribution from the BCPUD toward the trimming or removal of these trees.

**6. Request for Financial Relief from Quarterly Water Bill pursuant to BCPUD Resolution 553 – 41 Ocean Avenue, Bolinas (S. Ciani).**

Suzanne Ciani was present to request financial relief from her most recent quarterly water bill as a result of a leak on her property. In response to questions from director Smith, she confirmed that the leak has been fixed and BCPUD staff said a meter reading shows usage has returned to pre-leak levels. Director Smith said that based on the documentation submitted, it seems this was a classic "blind leak" that the property owner acted responsibly to fix as soon as possible at significant expense, so he proposed full relief from the amount of the bill over the historic average for the same quarter.

D. Smith/V. Amoroso all in favor to  
forgive 100% of the amount of bill attributable to the water loss caused by the leak as determined by the historic average water use at the property during the same quarter for the prior three years.

**7. Obstruction of Access to BCPUD Water Main off of Overlook Road near Terrace Avenue.**

Staff reported that a meeting was held and agreement reached with the affected property owner about the district's access to its water main as set forth in a proposed letter agreement; in brief, staff has confirmed that access is adequate (although not ideal) and the property owner has agreed not to hold the BCPUD responsible for any damage to a new structure located near the water main in the event it is necessary for the district to remove or demolish any part of it to repair or maintain the water main.

V. Amoroso/L. Comstock: all in favor  
to approve the proposed letter agreement.

**8. Coastal Permit Application and Minor Design Review, APN# 193-020-55, 56, 57, Bolinas Fire Protection District, 100 Mesa Road Bolinas (AT&T Mobility).**

Director Smith said that AT&T has two trios of antennae at the Firehouse. Previously, when AT&T asked to increase their power/frequency, the Bolinas Fire Protection District ("BFPD") agreed, but on the condition that there are no increases in ground emissions of 10% or greater – AT&T agreed. Director Smith said that the current proposal is for three more antennae, so the BFPD is taking steps to have the resulting potential ground emissions measured. When the ground emissions were last measured, they were very low, less than the equivalent of holding a cell phone to the ear.

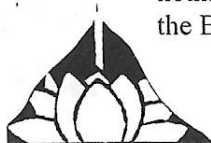

**9. BCPUD Land Stewardship Committee Report to the Board of Directors Concerning Past and Present Uses with Recommendations for the Future re: BCPUD Sewer Pond Property Outside of the Treatment Area; Draft Minutes of the January 20, 2016 BCPUD Board Meeting Concerning the Report.**

Ken Masterton and Janine Aroyan from the Land Stewardship Committee were present to seek clarification of the draft minutes of the January 20, 2015 regular Board meeting, a copy of which was provided to the committee by BCPUD staff, insofar as the minutes pertain to the committee's report to the Board. Specifically, Ken and Janine stated that it was their understanding that the Board approved the committee's recommendations at the January 20<sup>th</sup> meeting, in addition to receiving the committee's report, but the draft minutes do not reflect that. Directors Amoroso, Godino and Smith all disagreed and said that while the report itself was accepted by the Board, the Board did not approve all of the recommendations – rather, the Board members resolved to evaluate each recommendation more thoroughly and then approve or disapprove them at that time. Director Siedman concurred, stating that the Board accepted the report and said it will await further input from the committee as to the recommendations.

Discussion ensued and Janine emphasized that the committee spent a lot of time and effort to study the section of BCPUD land outside the treatment area and set standards for its future use. The committee now would like to move forward and does not want its work/progress to be set back by any activities on the land that are inconsistent with the report's recommendations. She said the Board is sending a "mixed message" but accepting the report but not the recommendations.

Director Comstock said that he feels the Board accepted the report as a planning document for this property. The report is good, a lot of work went into it, and many of the recommendations make sense. The Board accepted it as a planning document, which is no small thing, but did not take action or obligate the district on specific action items/expense. There are a lot of action items (i.e., recommendations); some of them are minor and not controversial, whereas others are much bigger in scope. He suggested that if the committee would like to propose moving forward on a specific recommendation, it should come to the Board with a request and a plan for how to pay for it. Director Godino concurred and encouraged the committee to prioritize its recommendations within the reality of the available resources to implement those recommendations.

Ken Masterton said he thinks the only controversial issue is the topic of leasing any more of the land. Director Smith said he is not prepared to say no new leases ever, but that any newly proposed leases perhaps should go to a community vote. Ken disagreed with this and the discussion continued for a few moments while different points of view were expressed. Director Comstock said that the Board has accepted the plan, which contains a recommendation not to lease any new lands, however a future Board could reject the plan and anyone can come and ask to lease new lands, there is nothing the current Board can do now – he said he feels the Board has done as much as it can do at this time.

Minutes conclude on p. 8

... Cont. from p. 7

# **10. Agreement for Bookkeeping Services – Robyn Dismuke, Maze & Associates.**

V. Amoroso/L. Comstock all in favor to approve an agreement for bookkeeping services for the district to be provided by Robyn Dismuke of Maze & Associates.

## **11. Water Supply Update: Report from Consulting Hydro-geologist Rob Gailey.**

Director Smith reported that he and director Comstock had a technical discussion with the district's consulting hydrogeologist, Rob Gailey, which was exceedingly helpful. Director Smith said that the flow of water from the Spring Road area is a significant unknown in terms of contribution to the recharge of the groundwater supply to the well, which he had not previously fully appreciated and which complicates the flow dynamics. As a result, he recommends that the district conduct some monitoring of the marsh behind the hardware store (and perhaps other points along Wharf Road); the data from that monitoring effort will assist Rob in his hydrologic assessment of the groundwater supply. Director Smith emphasized that the monitoring effort is relatively simple and can be implemented by BCPUD staff at minimal cost. In addition, the district should contract out for a survey to confirm the elevation of the well relative to the mean high tide line, which is very crucial information.

Director Comstock agreed that it will not cost very much to do the monitoring or contract for a survey, but the underlying questions remains: how much is it worth for the district to spend on assessing what is likely a relatively small aquifer? Director Smith concurred that the data suggests it is a small aquifer that is vulnerable to seawater intrusion, but the district needs some sort of closure on this. Director Siedman said that even if the aquifer is not reliable on a long-term basis as a sufficient supplemental potable water supply source, it could be an emergency source if the district's surface water sources are exhausted.

## **12. Volunteer Committee Reports.**

-- *Bolinas Lagoon Advisory Committee:* Director Amoroso reported that the County is moving ahead with the so-called "north end project" to eliminate the turn-off across from the Bolinas-Fairfax Road and return the existing road to the lagoon.

-- *Downtown Parking & Traffic Committee:* Nothing to report – parking and traffic in downtown Bolinas has been at record levels as the warm and sunny weather has persisted in February.

-- *Resource Recovery: Update re: Notice of Violation from the Marin County Environmental Health Services Department.* Staff reported that a draft Storm Water Pollution Prevent Plan ("SWPPP") has been submitted by the district's consulting engineers and is under review by staff; when approved, it will be submitted to the County of Marin's stormwater pollution prevention department.

-- *West Marin Mosquito Control Coordinating Council:* Director Godino reported that Supervisor Kinsey facilitated another productive meeting between the Council and the Marin/Sonoma Mosquito & Vector Control District ("M&VCD")'s West Marin subcommittee. She said that the M&VCD really wants to have the option to use low-level quick-acting

methoprene briquettes in septic tanks in West Marin. The M&VCD claims it is costing much more for the district to service West Marin than it receives from West Marin in revenues. However, director Godino noted that out of more than 5,000 properties in West Marin, only about 130 were on the list for "repeat visits". Unfortunately, the M&VCD now believes it cannot have a separate, non-toxic agreement with West Marin because of a legal opinion to that effect prepared by its attorneys; as such, the Council will need to seek a legal opinion on the topic. The next meeting to be held will focus on methoprene. Director Godino said she has been researching the topic and it appears that whereas methoprene is not directly harmful to people, studies show that it is damaging to crustaceans and amphibians (at MUCH higher concentrations than those proposed for use in West Marin by the M&VCD).

-- *Land Stewardship Committee:* Nothing further to report.

## **13. Other Business.**

### **a. Board Committee Reports.**

-- *Finance: Minutes of the February 9, 2016 committee meeting.* This item was deferred to the February regular meeting of the Board.

-- *Legal:* Nothing to report.

-- *Mesa Septic, Flood Control and Roads:* Nothing to report.

-- *Operations:* Nothing further to report.

-- *Park and Recreation:* Director Amoroso said he attended a recent Mesa Park board meeting and it seems that Mesa Park is planning to spend approximately \$5200 to install some improvements to the irrigation well.

-- *Personnel:* Nothing further to report.

-- *Sewer:* Nothing to report.

### **b. Minutes of the January 20, 2016 regular Board meeting.**

Board members offered various clarifications to the draft minutes of the January 20, 2016 regular meeting of the Board.

D. Smith/G. Godino all in favor to approve the draft minutes of the January 20, 2016 regular meeting of the Board, as amended.

### **c. Warrants.**

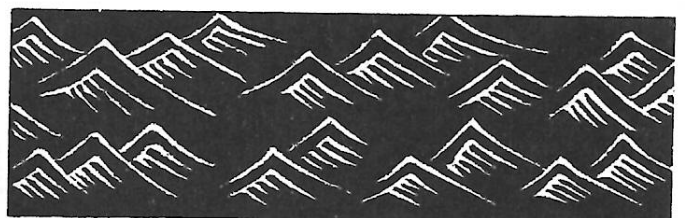

L. Comstock/D. Smith all in favor to approve the warrant list.

### **d. Scheduling of Next Meeting(s):**

March 16, 2016 at 7:30 p.m.

9:58 p.m.

## **14. Adjournment.**

## AGENDA

Bolinas-Stinson Union School District

Regular meeting of the Board of Trustees

April 5, 2016

Meeting Time and Location:

Closed session 5:00 to 6:00 PM Bolinas Campus,  
meeting roomOpen session begins at 6:00 PM Bolinas Campus,  
Library

125 Olema Bolinas Road, Bolinas, CA 94924

BSUSD Trustees: Nate Siedman,  
Jennie Pfeiffer, Arianne Dar, Steve  
Marcotte, Cyrus Harmon;

Attendees: Superintendent John Carroll

Tickets: DP website or at Bookstore

For more information on these and other events, visit [www.ptreyesbooks.com](http://www.ptreyesbooks.com)

Other than the Bolinas Hearsay News, the Pt. Reye's Light was the only news outlet in Marin publishing writers opposing vaccine propaganda. This piece was written for that debate, but the editrix said no. Rumors from Conspiracy Corner say she was gotten to, just like Robert DeNiro, who pulled Vaxxed: From Coverup to Catastrophe from the Tribeca Film Festival. He said he merely wanted to start a conversation. Apparently the dialogue went "If you don't recant, you'll never work in this town again!"

### Vaxx Faxx Don't Hold up in Court

It's ironic when a lawyer claims a doctor is wrong, wrong, wrong about vaccine safety and effectiveness. Especially when Dorit Reiss' critique (PRL 3/10/16) is as fact free as a Trump Rally. Dr. O'Malley's column (PRL 2/11/16) explained her reasonable doubts about the pro-vaxx evidence because it wilts under cross examination.

Reiss's claim that vaccines "provide their children with optimal protection from disease", and save tens of thousands of lives per year were flatly rejected by Lancet, the British Medical Journal. "There is no evidence that vaccination played a major role in the decline in incidence and mortality of infectious diseases".

Reiss claims "serious harms from vaccines are extremely rare." Thirty thousand reports are made yearly to the Vaccine Adverse Events System, the federal registry. High fevers, seizures, inconsolable wailing and developmental regression are common. Several thousand need hospitalization for brain inflammation, paralysis or death. David Kessler, former commissioner of the FDA, stated "only about one percent of serious events are reported."

Parents and patients permitted to enter the secretive Vaccine Injury Compensation Fund are prohibited from publicly speaking about what transpires behind their doors. VICF was set up to pay victims for damages from the "unavoidable harm" their potions cause. Sixty percent of claims are summarily denied.

Victims still had the right to sue in civil courts, until the U.S. Supreme Court further shielded drug companies in 2011 from liability for harm caused by vaccines mandated by government, even when

companies could have made a safer vaccine. Maybe a Professor of Law can explain why the men behind the curtain get away Dread Scott free.

Dr. William Thompson was the CDC epidemiologist for a CDC study used to "prove" vaccines don't cause autism. He turned whistleblower in 2014 after his internal objections were ignored. After finding rates of autism 240 times greater in vaccinated black boys, researchers eliminated half the sample, mostly African Americans. Reitt calls them a "spurious sub result". The lead researcher who approved their removal, Dr. Boyle was made director of the CDC's National Center of Birth Defects and Developmental Disabilities. That is definitely ironic.

Reitt's summary should read "When the only argument [for] requiring vaccines for school relies on mistaken beliefs about vaccine safety, it cannot stand." Or she'll be laughed out of court when SB277 is legally challenged.

Stephen Simac

Mandatory Vaccination = Totalitarian Inoculation is the third book in his Medical Monopoly series.

## Karaoke at the BCC Sunday, April 3rd

5:00 p.m.

**ALL AGES!**

**\$5-10 sliding scale  
fundraiser kickoff party!**

Did you know that the Bolinas Bay Performing Arts provides at least \$3,000 a year in scholarship funding? That might not seem like a lot of money, but for an organization with a small operating budget, it is—we prioritize opportunity for participation for all members of our community, while ensuring local, experienced instructors get paid.

So...please join us for our scholarship fundraising kickoff party, where we will have a professional karaoke system complete with 50,000 songs from all genres. We'll do sign-ups for solos and group numbers...with words projected on the big screen!

We will have very affordable main dish...please bring a salad or dessert to share. The Bolinas Community Center will be providing the bar. Please come, and tell your friends!!

...unable to attend, but would like to contribute to our fundraising efforts? Please mail a check (made out to Bolinas Community Center) to PO Box 134, Bolinas, CA 94924

## Paul Smith Solo Piano Recital

Saturday, April 2, 7:00 PM

Free admission! Donations accepted.

Paul Smith received his undergraduate education at the Royal College of Music in London, studied piano with John Lill and Bernard Roberts, and spent an additional year at the Vienna Academy. He graduated with a master's degree from Dominican College, studying piano with Julian White. Paul is the artistic director of Contemporary Opera Marin, which specializes in the production, performance, and commissioning of contemporary operas. He is also the founder and artistic director of the Music From Marin summer festival.

## A READING & CONVERSATION WITH BILL PRESS

Saturday, April 9, 7:00 PM

\$10 at the door

**BUYER'S RÉMORSE: HOW OBAMA LET  
PROGRESSIVES DOWN**

Bill Press, prominent liberal syndicated radio and television host (and part-time Inverness resident), concisely explains the many ways he says President Obama has failed to live up to either his promises or his progressive potential. In his new book, Press reflects back on what for many progressives has been a disappointing presidency and comes to a depressing conclusion: Obama grossly misunderstood the mandate of the enthusiastic crowds that swarmed him on the campaign trail.

## ATTENTION ALL CITIZENS

It is that time of year when the BCC prepares for the annual Art & Garden Silent Auction. If you would like to donate a service or merchandise gift certificate please contact us. 868.2128, stop by or email [randi@bocenter.org](mailto:randi@bocenter.org). Thank you.

West Marin's Best

Photograph © Ilka Hartmann

On November 20, 1969 a group of Native Americans landed on Alcatraz Island and claimed it as their own. They stayed for 19 months. While the media reported every move and the government fought to stop them, families moved in, thousands of supporters visited or sent supplies, and drums beat far into the night. After centuries of seeing their land stolen from them, Native Americans seized the rocky island and held on to it. Alcatraz became a symbol of hope, inspiration and change for Indian people everywhere.

In this film Adam Fortunate Eagle, the principal organizer of the occupation, gives a passionate, humorous and personal account of this exciting event that changed Indian history – and American history forever (40-Minutes, color and B&W).

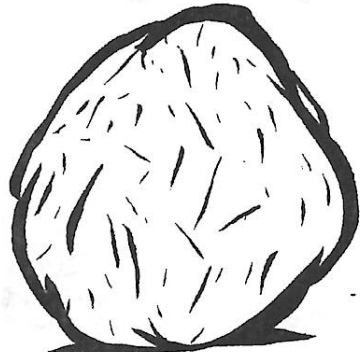

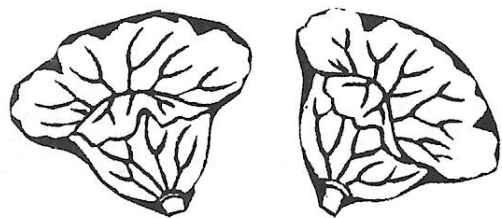

Fortunate Eagle is a sculptor, ceremonial pipe maker, spiritual leader and author of *Heart of the Rock*, *Pipestone: My Life in an Indian Boarding School*, and *Scalping Columbus and Other Damn Indian Stories* (all published by Oklahoma University Press).

**Saturday April 9, 2016 - 1:30 PM**  
**Tiburon International Film Festival**  
[www.tiburonfilmfestival.com](http://www.tiburonfilmfestival.com)

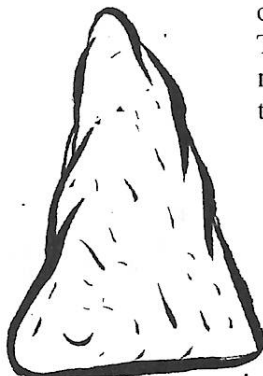

Showing on Saturday April 9<sup>th</sup> at the "Playhouse" movie theater in Tiburon, with many photos by Ilka Hartmann of the urban American Indian community and their occupation of Alcatraz.

The woman who sailed the Indians to Alcatraz in the middle of the night, in the pitch dark- no motor, will be there and invited us over to her house afterwards.

-Ilka Hartmann
