Black Cat "HUG" Missing

Disappeared from near the Bolinas School
on 6-16

"HUG" has black/white collar with Pink Heart tag, Phone Number 246-9047, belongs to LULU DRUX

"HUG" is a scaredy cat, will probably be hiding....but will come out with reassuring calls and cat food. Please call if you see her 246-9047. She is a dear companion.

Did you know that the Bolinas-Stinson Union School District board is studying possible facilities improvements to the school that would allow the district to include preschools? The board-authorized, 9-person Facilities Needs Committee delivered two proposals to the board on June 5, 2012. You can read the FNC report, study its proposals, read minutes and other documents, and join an online question and discussion forum regarding facilities on the Bolinas-Stinson School homepage: <http://bolinas-stinson.org/fnc/forum>. Please join in the discussion and share your thoughts.

Kent Island Activity

You may have noticed that there has been a few people walking or boating on and around Kent Island recently. This activity is the initial stage of a larger project to return the island to its original flood shoal configuration. Until the last 50 years the island had little vegetation and was more dynamic and able to change shape as a function of tides and currents. Also, there were fewer trees then, which allowed the prevailing and storm winds to have more power to agitate the sands on the island and in the tidal flats of the lagoon; thus allowing more silt and mud to be suspended in the tidal water to be carried out to sea.

The Marin County Open Space District has hired a botanist to map rare and common native plants on the island in preparation of doing selected salt water flooding to kill exotic and invasive plants and grasses on the island. The most common would be ice plant. You will see this young lady almost daily on the island.

Also, this week two men from the United States Geological Survey have been doing digital mapping in conjunction of an aerial survey the has been done every ten years since the 1960's. This bathymetry map aids in tracking the tidal function of the lagoon.

All of this is in preparation to plant removal in late August of this year. Work will be done by volunteers under direction of the MCOSD.

Please contact me if you have any questions.

Br. David Steindl-Rast
Common Sense Spirituality

Brother David Steindl-Rast is an 86-year-old Benedictine monk who many consider the successor to Thomas Merton at the intersection of Christianity and Buddhism. More than that, Brother David has developed a "common sense spirituality" that touches the heart of all the great spiritual traditions. He is a self-described "apostle of the spirit of gratefulness." He says his favorite name for God is "Surprise," because "Surprise" is the only name that does not limit the Nameless One. In this interview with Michael Lerner, the continuation of the conversation in February 2012, Brother David returns to The New School for part two of his spiritual biography.

At present, Brother David serves a worldwide Network for Grateful Living, through www.gratefulness.org, an interactive website with several thousand participants daily from more than 240 countries.

RSVPs are required for this event. RSVP online through our website.

No charge for the event; donations accepted

MESA PARK MEETING
MONDAY MAY 14, 2012
FIREHOUSE COMMUNITY MEETING ROOM
7 PM

Call to Order: 7:10PM

Board members present: Patricia Hickey, Bryan Lee, Charles Whitefield, Jane Mickelson, Geoff Geupel

Others: Suki Ferrari, Vic Amoroso, Roger Peacock, Jack Siedman

1. Community Expression: [Bryan] Wants to thank Robert & Laurie Mowry for their donation of new nets for soccer field.
2. Downtown Park report: [Roger] handed out construction schedule for Down Town park. Soft opening planned for 7/4th. Want all basic landscaping, sod ready for people to walk in the park. Paths will be in. Bathrooms will be functional and open to the public. This week we're buying some large trees and will be focusing on above ground work after finishing the underground. Meeting with irrigation/sod man tomorrow. Don Murch helping with roto-tilling. Irrigation planned to start Monday. Sequence of paths and borders going in. Labyrinth pad has been poured. There's a plan to have a wooden boat in there, ADA accessible, for the kids to play on. After the bare bones park expenses there will be a wish list for future installations after fund raising: a cob-built pavilion, a wood oven for the whole community, parental in-put into the play area. We will want to have a maintenance fund. [Patricia] It's time to form a maintenance committee for the park: who's going to be cleaning the park, cleaning the bathrooms, picking up garbage, etc. Someone needs to be hired before the park opens and there has to be money. We've agreed to have enough for 2 years of maintenance; fundraising for an endowment. It can't open unless there's a budget and a plan. We don't have an employee to do this work. Will this be through the BPUD? [Geoff] Does the donor have expectations about the finished park? Can we use some of the donated money for this? [Bryan] What documentation do we need for the maintenance schedule? [Patricia] Who else would be good to serve on the committee for operational plan & budget? [Roger] I've talked with the county and asked them for a budget. It could be possible to have the county take over the maintenance of the park. [Jack] Last meeting at the park we talked with the landscapers. [Roger] Len Springs will begin next Monday. There were no local bids. We wanted someone who'd do the irrigation and the lawn work. The rest of the landscaping we're going to do with volunteers. We'll bring in soils. We've bought trees wholesale. Thursday we plant the olive trees. The water's on. We've purchased just about everything: fruit trees, too. Michael Bernsohn from Las Baulinas Nursery has been very helpful with obtaining plants. [Patricia] Please give us a list of volunteers & donors. [Suki]

Will there be an overall plan for using the DT park to avoid conflict over usage? There is usually a contract for using park space over the hill. [Patricia] We need a use policy. Who would be a good person to speak with about it? No solicitation, no sales, no alcohol [Use policy will be folded in with the general rules for the use of the park]

- a. Maintenance Report: [Suki] Do you want me to start mowing the new soccer field. I've mowed the perimeter. [Bryan] It should be mowed to encourage thicker growth. [Suki] What's the status of the Stage that's been parked there for ages? [Charles] I'll find out. We really should be trimming our windbreaks 2-3 times per year. [Suki] We should get the bark in before next winter.

- b. MOU with County for maintenance of Bolinas public restrooms: [Jack] Patricia & I met with county and asked about the cost. They thought 20 minutes per restroom. About an hour per day 4 times per week. [Roger] the county is paying about 14K per year. [Jack] They will add the down town bathroom supplies or we'd have the same wholesale contract with the supplier. [Patricia] the MP bathrooms will get much less use than the downtown ones. [Jack] I'll get more information and we'll present it and negotiate it with the county. We can take over the maintenance of the tennis court bathrooms and the transportation costs for the cleaners from out of town would be saved. [Roger] approx. \$14k per year the county pays for the cleaning of the bathrooms down town. [Suki] They're also using their equipment, and we'd have to use ours. [Roger] County has two different districts: Open Space district and park district. They clean Agate Beach. [Suki] I'd do the landscape work: mowing, weed-whacking. [Charles] We could split the jobs. [Jack] Do we go to the county and get them to let us take over the maintenance? [Ch] We could take on the plants and the bathrooms but not the repair of the tennis court/nets. [Patricia] Anyone we hire has to go through a security clearance. [Jack] We'll get that information. [Vic] How much are you planning to hold back for 2 years maintenance? [Bryan] We'll work on firming that up by next meeting.
- c. The use of Mesa Park parking area on July 4th (fee for parking) [Bryon] It's typical for a donation to be made to Mesa Park for use of the parking lot. [Geoff] I'll contact the Lions Club about that.
- d. Pool Development: Jane is planning a meeting with Anna & Christine to set up a financial liaison.
3. Irrigation Project: [Bryan] Jennifer hasn't heard back from the state yet on the amended grant. But we have the \$13K block grant so we can apply for permits. It costs \$150 to speak with them. I'll get the final plan over to Jennifer by the end of the week; it can then go to the county & we can get the coastal permit this year to get the water up the hill. I had to show a civil sheet showing the ADA specs are compliant; there are just 4 slopes that need signage & addressing. [Charles] What do we do with the field right now? Do we continue to water or let this surface go & resurface it

appropriately when we get the grant? [Bryan] I've got quotes from Pace; we can tie it from the well to a temporary connection. I agree with Charles. To put a lot of effort into it right now doesn't make sense. It would take 1500 gal. of water a day, and take 2-3 hours per day to fill the tanks. [Geoff] Does everyone agree to this? [all] Yes. [Geoff] We'll fix it when we have the money to do the irrigation and we can re-grade properly. It will save water & labor.

4. Treasurer's Report: [Patricia] I'll be working with Roger on a working plan for the budget. Big ticket items for DT park this month: 2 more payments to Green Builders, Redwood Engineering. Mesa Park: on the 13th of April we got the money from the county (parcel tax), we haven't gotten the \$10K from Kinsey/county. We've paid the monthly porta-potti bill. \$28,15.40 balance for the MP account.

Patricia provided a fiscal year 2012-2013 operational budget: Up-coming costs: estimate based on downtown tennis court, water usage, etc. [Suki] The dirt for the softball field needs to be included. It's no longer a Little League field so they won't contribute. [Charles] it would be about \$1500 for the dirt. [Geoff] that's a new project. We'll address it when it comes up. [Bryan] We have playing field maintenance in there.

5. Other
Election procedures & issues: the Board needs to notify the county that there are there are 3 positions going on the ballot: 2 vacant seats held by Bryan Lee and Geoff Geupel will be up, and Patricia Hickey for short-term, as she assumed the balance of Andy Blake's term when he resigned.
6. Approve Minutes of Last Meeting: Charles moved. Patricia 2nd. All Aye.
7. Approve Warrants: Jane moved, Bryan 2nd. All aye.

Schedule Next Meeting: June 11, 2012

Mr. Sergio Vergara
Stinson Beach Market
101 Calle Del Mar
Stinson Beach, CA 94970
415-868-1923

6-16-2012

Dear Mr. Vergara,

I am writing to thank you for your willingness to discontinue selling rodenticides at your Stinson Beach Market in favor of non-toxic alternatives. You and your store have made an important ethical decision and by doing so have echoed the concerns of the EPA and California Department of Fish and Game and have joined with the Bolinas Market and the Bolinas Bay Hardware Store in establishing a leadership role here in West Marin. By refusing to sell these harmful poisons you are helping to protect our children, our pets, our wildlife and our environment. WE ALL THANK YOU!

As was recently mentioned, there is a non-toxic, cellulose based rodenticide made from corncobs that is expected to be available in the U.S. for sale to the general public in September of this year. This product interferes with the digestive system of rodents but is not harmful to predatory birds and animals. We will definitely keep you informed when this product is ready to re-enter the consumer market.

Again, I want to extend my genuine appreciation to you for taking a leadership role in this effort to restrict the presence of these harmful rodenticides in our environment. You and your store are definitely making a difference.

Very Sincerely,

Stockton Buck

Listen Up!
Music Talks!

AS TOLD TO STEVE HEILIG

Greetings, humanity. Listen up now. I'm going to tell you a few things about myself. I am Music. I suppose I should sing this, but I'll spare you.

I've been around almost as long as you have. Sitting around the caveman campfire, your earliest ancestors found me first by just singing, then by beating on rocks with sticks and bones.

Rhythm! What a joyous thing to discover. Some of your predecessors in the jungle found ways of "jamming" by slapping their palms on the surface of water. Very cool. Just clapping hands worked too. Songs are almost as old as your species. Chants to whatever spirits you feel and messages of warning, love, harvest, and even war spilled forth. And then instruments were created to make musical sounds. Drums, of course, from animal skins and wood, but also horns, stringed things, wooden flutes, and much more. When you figured out how to make metals, all manner of horns and strings and more burst forth. From those humble beginnings you must admit the complexity and diversity of music that exists in the world is astonishing. Huge symphonic orchestras. Jazz quintets. Gamelan gongs. Rastafarian reggae bands. Salsa orchestras. Funk bands. Bluegrass units. Central African *soukous* guitar bands. Indian ragas. Rock 'n' roll! I could go on and on, winding up with John Cage's famous "4'33" of silence as music too.

See? I am universal. From Carnegie Hall to a Goa beach rave-up, I am a primary human destination and goal. From before birth to your leaving this life, I can be there for you. Could you have a wedding without me? I entice you to worship, however you do that. I accompany you to battle. I kick off your ballgames. I am the soundtrack to your revolutionary movements. I move you to tears, laughter, lust, and love. I lull you to sleep. I am in elevators and stores and commercials to help push your shopping (sorry). I get stuck in your heads and drive you nuts (ditto). Perhaps best of all, I entice you to dance.

Now, I cannot do this alone, of course. It takes you—inspired, perspiring, training for years, practicing until perfect—to make me my best. Very few obtain the highest heights of mastery other than all those birds. Some of the few might even be called musical avatars. Every continent has some (well, in Antarctica they may be nonhuman, but that counts too). Since I am in the United States right now, though, I will humbly offer my list of the top 15 I have blessed you with so far. Every one of these figures is somebody you should hear:

- Louis Armstrong**—aka Satchmo, founding figure of jazz, "America's classical music"
- Duke Ellington**—master of jazz composition and orchestration
- Hank Williams**—country music's mysterious, tragic founding figure
- Woody Guthrie**—the nation's founding folkie
- Robert Johnson**—hands, voice, guitar, suffering, perhaps even the devil—the blues
- Miles Davis**—The Dark Prince, reinvented jazz at least four times
- John Coltrane**—spiritually took jazz from bebop to new realms still being explored
- Frank Sinatra**—The Voice
- James Brown**—The Godfather of Soul, not to mention funk
- Chuck Berry**—"If rock 'n' roll had another name, it might be Chuck Berry." —John Lennon
- Elvis Presley**—The King
- Muddy Waters**—electrified blues but kept its roots
- Bob Dylan**—America's poet laureate, titled or not
- Jimi Hendrix**—took rock and blues to a new place from which it has never recovered
- Gil Scott-Heron**—invented rap, mixed with jazz and funk, and was never bettered

Now, I recognize some potential problems here. Where are the women? What about classical music? (It's mostly European, and even I have trouble understanding it—my loss.) Whereof Motown? Gospel? What about electronic dance music—does sound that requires drugs to dig count? (For that matter, where's Jerry Garcia?) And of course the endless quibbles that might be targeted at any category or person included or omitted (and I am not saying these avatars are necessarily the best, but the most influential in their genres). So don't worry. You can add people named Holiday, Charles, Zappa, Simone, Gillespie, Parker, Cash, Gaye, Redding, Mingus, Monk, Haggard, Nelson, Cobain, Franklin, Pop, or even Arthur Lee or Rat Scabies if you wish—but remember you'd have to remove an entry to make room for each. (Mitchell, Young, The Band, Cohen—sorry, Canadians.) It's up to you. It's just my list, this month. It could and does change with mood or whatever. Your results may vary. I wouldn't mess with your list—okay, I do have a secret roster of folks who would be excluded. Don't ask, as these are subjective, undefinable, and indescribable matters. The best stuff usually is.

Time to go. So many places to be and play at once. But before I do, take a cue from one of your greatest lyricists, Irving Berlin: let's face the music, and dance. ♪

Steve Heilig has channeled his dog, bacteria, the Apocalypse, and other authors for CG but otherwise writes widely about environmentalism, epidemiology, ethics, ethnomusicology, and eating for a wide variety of publications.

Art Plus Life

June 23 - September 21, 2012

Opening Reception:

Saturday, June 23 • 3-5 PM

Bob Demmerle, Linda Gass,
Mary Daniel Hobson, Elizabeth Jameson
Daigan Lueck, Maud Zimmer

The exhibition, ART PLUS LIFE at Commonweal Gallery shows a range of innovative art in painting, sculpture, photography and mixed media by six major Bay Area artists whose work and creative process are motivated by healing the self, the society or the environment.

Bob Demmerle and Maud Zimmer have created new site-specific sculpture for the Commonweal Gallery. Mary Daniel Hobson shows photographs from her body painting series, Daigan Lueck, a Zen priest, poet and painter shows mixed media works that include acrylic on canvas, found wire and objects from the Green Gulch Farm where he has lived for the past 20 years. Elizabeth Jameson converges science and art in the study of the human brain through the use of magnetic resonance images. Linda Gass focuses on water and the environment resulting in colorful and complex wall hangings.

The artists were invited to create work for the exhibition by curators Jacqueline Mallegni, Commonweal Gallery and Claudia Chapline, co-sponsor for Art at the Cheese Factory, a non-profit organization that sponsors site-specific installations in Marin County.

The public is invited to the opening reception on Saturday, June 23 from 3-5 PM.

The artists and curators will be present.

RHIANNON—MOUTH MAGIC

Eighteen singers from around the planet join Rhiannon for an evening of vocal improvisation and song. These singers are part of a year-long course called "All The Way In" moving from Hawaii to Point Reyes to Montreal with teaching and performance in each spot. Because Rhiannon was a resident of Inverness and Point Reyes for 20 years, she loves to return and bring singers with her to experience the community and creativity of West Marin. Join her for this musical event with local guests and singing for all.
