In honor of Mother's Day, join us for lively music and dancing in the courtyard! With a broad repertoire of original and funky renditions of traditional tunes, Oakland's La Mixta Criolla features swinging Caribbean grooves firmly rooted in Puerto Rico's rich musical culture.

La Mixta Criolla is a dynamic music and dance ensemble founded by percussionist, singer, songwriter Hector Lugo. The group's distinctive sound balances the color and range of the Puerto Rican and the Venezuelan cuatros, the bass guitar, and the accordion, with the percussive drive of the barrel shaped Bomba drums, the panderos of the Plena, and the güícharo - bongó tandem of the Música Jíbara of the Puerto Rican countryside. Firmly rooted in Puerto Rico's rich musical culture and inspired by the soulfulness of Caribbean music, La Mixta Criolla delivers performances of singular strength and passion to the delight of dancers and music lovers everywhere.

Thanks to eighteen generous friends of Bill Quist who answered our calls in previous Friday Hearsays, we collected over \$700 to replace his stolen cameras. Bill was blown away to find he had such support in the community, and he is eagerly searching out just the right equipment with which to resume his artistry. Thanks to all who helped show how much we love him.

DEEPLY GRATEFUL

(Camera Fundraiser)

Unexpected gifts of kindness give a soul smiles of quiet joy. Our town's outpouring of support with practical dollars rocked my spirit. (I thought my time with photography was over for awhile.) You can imagine my great surprise.

So, how do I thank you all? At 65, I feel stronger than ever to "pay it forward." So, from the inspiration of kind gifts, I can honor this force by continuing using my free time and ease of shooting photos or playing music to support the myriad of benefits out there, both private and public. Tap in! My cell is:

(510) 323 - 6210

Special thanks to Don Smith & Jane Mikelson, whose idea of changing a situation from 'bad to good' with generosity took hold and to all those who contributed cash and checks. To that special anonymous person who did the matching funds, Wow!

I received all this, this pass May Day Weekend, so private thank-you's are soon on the way. Hmmm, Thanks to our fair town.

**CONVERSATIONS: HARMONY OF CHANGE**

Arline Mathieu and Tim Burns are showing their recent work during the month of May at the Gospel Flats Farmstand Gallery. Arline's work, informed by the observable world, stems also from science and Buddhism. With ink and water-based paint, the pieces here offer an imagined, but possible, universe. Tim's work originates from his keen observation of the environment, specifically Bolinas. In these photos, Tim has captured abstractions in nature that occur naturally.

There will be an opening reception at the Farmstand Saturday, May 7, 3:00-5:00. Hope you will be there.

-Arline Mathieu

*Briones Lions Citizens of the Year  
Award Celebrated*

The Frank Wells Award, also known as our Citizen of the Year Award was created to honor individuals whose voluntary contributions have made significant and positive difference in the communities of Stinson Beach and Bolinas.

The award began in 2007 to honor Frank Wells, a Lions Club member of great selfless character who believed deeply in volunteerism and devoted himself to good causes and high principles.

The Briones Lions Club recently honored two individuals, Bruce Bowser of Bolinas and Mike Matthews of Stinson Beach. Mike has been Chairman of the Stinson Beach Village Association for many years in a volunteer capacity and has contributed a great deal to his town. Bruce Bowser has served as President for the BCLT, has worked tirelessly to protect Kent Island and Agate Beach and is currently on the Sanctuary Council, constantly advocating for our beautiful local coastline.

Congratulations to both!

My good friend and film partner James Lefkowitz (middle) just finished a theatrical tour of his latest film THE DOG WEDDING in LA and ended up staying with me in Bolinas and may never leave. He is so inspired by how open, giving, and free spirited people are here and also how good dogs have it here that he wanted to give a free showing of his fun, sweet, and crazy film about dogs getting married. Dog weddings are a thing and in the above photo is one of the dog stars that won his dog wedding photo contest. Hope everyone will get a chance to watch the movie and have a really good time.

**FLUORIDE IN THE WATER:  
DUMB AND DUMBER PT.1**

The Center for Disease Control places water fluoridation in the Top Ten "Great public health achievements of the 20th century", along with mass vaccination. Water fluoridation is recommended by most public health, medical and dental organizations, from the American Academy of Pediatrics to the World Health Organization. It's "the single most important commitment a community can make to its children and future generations." one Surgeon General declared. Can't argue with them, right?

The U.S. Institute of Medicine advises pregnant women to consume an "adequate intake level" of 3 mg per day. Yet, the Environmental Protection Agency found that fluoride "is toxic to the developing nervous system" in 2009, and placed it in the same neuro-toxicant category as lead, alcohol, mercury, arsenic and nicotine, that pregnant women are warned to avoid. The FDA won't permit claims that prenatal fluoride supplementation prevents dental caries later in children. This agency found "no published studies" showing it decreased them in adults and classifies it as "an unapproved drug".

Dr. George Waldbott reported that fluoride at the level of 1 part per million can cause hypothyroidism with symptoms of exhaustion, joint and neuromuscular pain in his 1957 book *The American Fluoridation Experiment*. Dozens of anti-fluoride books and hundreds of papers showing harm followed, but were ignored or ridiculed. Ninety seven percent of European countries banned water fluoridation because of increased risk of neurological disorders, bone fractures, joint pain from skeletal fluorosis, kidney, pineal, thyroid gland damage and lowered IQ. They have similar or lower rates of tooth decay than Americans, where two thirds of the nation drinks fluoridated water. Dental health improves with higher income and education, not fluoride use.

The Environmental Protection Agency allows up to 4 mg per liter in drinking water as perfectly safe. Dental fluorosis, causing white streaks, pitting and brown mottling of the teeth, occurs in children drinking .6 mg per liter of water. The CDC reported that 40% of adolescents had some dental

fluorosis in 2010. Tooth "enamel defects are indications of systemic cellular disruptions."

Dr. Frederick Stare, founder of Harvard University School of Nutrition was a major promoter of water fluoridation in the 1950's and 60's. Stare consulted for The Sugar Research Foundation and Alcoa, the aluminum giant. Fluoride fumes were permanently disabling aluminum workers and livestock downwind of their smokestacks. Water fluoridation created a steady market for their toxic waste by legally adding it to public water supplies, mass medication without informed consent.

The public is never warned that drinking "safe" tap water, will make them dumber and sicker. Makes you wonder about their claims of public health benefits from vaccines. (I know, swore off vaxx faxe, but couldn't resist one more jab.)
