#### West Marin Senior Services Volunteer Driving Program

Share a ride, save the environment, receive a reimbursement, and help an elderly or disabled friend or neighbor.

We can reimburse you if you share a ride.

We have funding, take a look at this program: it makes sense in our community, and if we don't use it, we'll lose it

Contact Chloe Cook for more information

West Marin Senior Services,  
415-663-8148, ext. # 114

If you have a car, you can help seniors or the disabled in your community. They can be friends, neighbors, or people you don't know that well and want to know better. Even if you are an IHSS worker or a relative, we can help you help them.

\* If your car gets 22 MPG, this program will pay you \$8.00 per gallon to share a ride. This is far above the going rate for gas. Take some time, share a ride, help the environment, and help a friend.

AN ANNOUNCEMENT FROM NOAA  
Email dated Friday, October 14

Two COSCO BUSAN Damage Assessment and Restoration Plan public hearing meetings will be held on October 19th: 12 noon on the first floor Auditorium in the Elihu M. Harris State Building, 1515 Clay Street, Oakland; and 7pm at the Mill Valley Community Center, 180 El Camino Alto, Mill Valley. We hope you can attend and support the inclusion of funding for Bolinas Lagoon restoration.

Thank you for participating at public meetings during development of the Locally Preferred Plan, and/or your attendance at past Town Hall meetings. As part of the supporting community that wants to stay informed about issues affecting Bolinas Lagoon, we want to keep you involved in an upcoming event regarding the status of restoration actions.

As you may know on November 7, 2007, the freighter Cosco Busan struck the Bay Bridge causing approximately 58,000 gallons of oil into the Bay. Wind and currents carried the oil to the outer coast impacting waters and shoreline from roughly Half Moon Bay to Point Reyes, including damage to marsh and tidal mudflat habitat in Bolinas Lagoon.

The National Resource Trustee Agencies (Trustees) have released a Draft Damage Assessment and Restoration Plan which describes and quantifies the environmental impacts from the oil spill, as well as proposes restoration actions to compensate for these impacts. There are currently 12 proposed projects being considered for inclusion. Funding to support continued monitoring and maintenance of the Kent Island Restoration Project for Bolinas Lagoon was included as an alternative restoration project but was not selected as preferred because the majority of the funding for this project has already been secured through grants.

The public comment period is underway and scoping meetings will be held to solicit public opinion regarding the current proposed projects and/or suggestions for additional projects not yet included. This is an opportunity for you to voice the need for restoration at Bolinas Lagoon and request funding for additional restoration projects within the Bolinas Lagoon Locally Preferred Plan. To read the Draft Damage Assessment and Restoration Plan follow this link.

To read the Locally Preferred Plan outlining all of the recommended restoration projects for Bolinas Lagoon follow this link. Many of the projects in the Locally Preferred Plan can help the species and habitats damaged by the Cosco Busan Oil Spill. The public comment period is being held through October 31st. If you would like to submit a comment, please send them to the attention of Steve Hampton by email at (shampton@ospr.dfg.ca.gov), fax (916-324-8829), or letter (California DFG-OSPR, 1700 K Street, Suite 250, Sacramento, CA 95814).

If you have any questions regarding these public meetings, and its linkage to Bolinas Lagoon please contact:

**Bolinas Community Center Board Meeting  
September 17, 2011**

**Present:** StuArt Chapman, Lia Kourula, Jennie Pfeffer, Steve Wrenn, Jeff Manson, Susan Tacherra, Una Zakas, Jon Broek, Randi Arnold, Kathleen O'Neill, Serita Lewis, Maitreya Rose, June McAdams, Pam Dake, Susannah Mills

10:00 am meeting called to order

**President's Report:** Stuart presented minutes to be read. Minutes approved with minor correction.

Special Thanks to Lia and Randi for all their hard work for Labor Day.

As Max has retired as treasurer, Susan Tacherra was asked to take over that position. A motion was made and passed and Susan is the new treasurer.

**Treasurer's report:** As the new treasurer Susan reiterated that our primary task is to maintain the building and the necessity of raising the monies that takes. She then presented the report from the bookkeeper and took us through the budget line by line.

It appears our income is down by \$14000 and our expenses up by \$20,000.

**Manager's report:** The fees for the plumbing work for the kitchen and mop sink were reduced by Bob Wall.

The light board is back from the repair shop and is now functioning, but we still need a few more lights.

After research it seems like a 2 door refrigerator is the best choice, refurbished it will be about \$1900. We will move ahead with that plan.

Lia will take the kitchen usage training that our permit requires.

The urn by the Library was accidentally broken by Jan Broek who said he wants to replace it.

The shelves and janitor supplies that were left outside and disappeared have all returned thankfully. After Labor Day the risers accidentally went back to the school because of a misunderstanding, were given away, but are now safe in the Tacherra barn.

A discussion about rehearsal time availability and cost took place with no decision made, as well as thoughts on booking and overseeing events.

A short closed session for personnel matters.

A big thank you to the People's Store for refurbishing the Plaza.

Discussion ensued about the need for a solar thank-you plaque.

Planning for the 60th celebration on the 11, 12 & 13 of November. Event will include slide shows, food, music and story telling. Elia Haworth will make a historical presentation, and a gathering for the founding families is being planned.

A Labor Day report was made. We made a little more than last year with increased bar and dessert sales. Thank you to all who helped with the herculean task of Labor Day.

Submitted by Kathleen O'Neill.

## Cory's Column

As somebody without sufficient wisdom to discuss politics I generally leave consideration of it to my acquaintances who feel more informed. When Ona asked me to write a political piece I refused. The people least likely to have knowledge of a subject are those who speak loudly about it.

Plato saw Socrates crawled upon and devoured by low thinkers; from this he determined that any only normally intelligent person is unqualified to consider political matters and should be discouraged from doing so. That belief has grown alongside western culture like a parasitic vine that sprouts from a tree's roots and terminates on a high branch. I can't achieve the degree of elitism necessary to buy into this paradigm, but it makes me uncomfortable to wonder where I would fit in if it described reality.

The great impossibility I find in learning about political matters is a universal unwillingness to argue to lose. Arguing to win is by default a blood, and instills both sides with a false sense of certainty. That an area of learning exists where discussion inevitably makes one more ignorant is bizarre to me.

Community Reading:  
Walt Whitman's *Song of Myself*

Introduced by Robert Hass,  
organized by Eric Karpeles

In 1855, Whitman published 795 copies of his book *Leaves of Grass*, paying for publication himself. "Song of Myself," as it came to be known, was the first experiment in long, free-verse poetry—a poem that former U.S. poet laureate and Whitman scholar Robert Hass calls, "the most unprecedented poem in the English language." The poem is Whitman's "song" about democracy and imagination, life and death.

Using the 52 numbered sections of the 1891 "Deathbed" edition, local volunteers will read Walt Whitman's *Song of Myself* in its entirety.

Co-presented with Point Reyes Books.

## Harvest Celebration & Fall Frolic, Sat. Oct. 22

All Bolinas and Stinson families of young children are invited to the Bolinas Children's Center on Saturday, October 22<sup>nd</sup>, from 1:00 p.m. to 5:00 p.m. to celebrate the bounty of our garden and to play in our big back yard. We will have games, food, face-painting, a cake walk, apple-pressing, a turkey and baby chicks to pet and more. Please bring apples and clean plastic bottles if you have them.

## WEAN YOURSELF

Little by little, wean yourself.  
This is the gist of what I have to say.

From an embryo, whose nourishment comes in the blood,  
move to an infant drinking milk,  
to a child on solid food,  
to a searcher after wisdom,  
to a hunter of more invisible game.

Think how it is to have a conversation with an embryo.  
You might say, "The world outside is vast and intricate.  
There are wheatfields and mountain passes,  
and orchards in bloom.

At night there are millions of galaxies, and in sunlight  
the beauty of friends dancing at a wedding."

You ask the embryo why he, or she, stays cooped up  
in the dark with eyes closed.

Listen to the answer.

There is no "other world."  
I only know what I've experienced.  
You must be hallucinating.

### PATTY LARKIN, 25 LOVE SONGS ♪ ♪

Patty Larkin is part of the urban-folk/pop music phenomenon that spun off of the singer/songwriter explosion of the seventies, reinterpreting traditional folk melodies, rock, pop, and bossa nova, drawing on anything from Dylan (Bob) to Dylan (Thomas). A self-described guitar-driven songwriter, Larkin has wound her way through soundscapes of evocative vocals, inventive guitar wizardry, and imaginative lyrics. Her songs run from impressionistic poetry to witty wordplay.

**MESA PARK AGENDA**  
**MONDAY, SEPTEMBER 12th, 2011**  
**AT THE FIREHOUSE @ 7pm**

**Directors:** Patricia Hicky, Charles Whitefield, Bryan Lee, Jane Mickelson

**Others:** Vic Amoroso, Serena Castaldi, Madeleine Muir, Ben Rosenberg, Janine Aroyan, Roger Peacock, Shari Fae Dell, Bill Lyons, Jody Angel, Will Richards, Zoe Gardener  
 Call to Order: 7 pm

**COMMUNITY EXPRESSION:** Ben Rosenberg requested use of the Mesa Park parking lot on Sat. Oct. 15<sup>th</sup> for parking for a wedding reception. There will be a shuttle van to convey approx. 100 guests, who will car pool. [Charles] The front lot holds about 50 cars so that should work. Ask that you offer a small donation to the park for the use of the facility. No vote necessary.

Madeleine Muir expressed concerns about tree cutting on hill above Downtown park, the status of heritage trees, changing the look of the town, and cost of replanting.

Serena Castaldi expressed concerns about the tree cutting and the status of the parcels included in the donated land. Did they include the hillside; what were the criteria for inclusion on the DT park design committee; concerns about the increased cost of the park between 2009 and now; wanted more notification before tree cutting began.

Jody Angel expressed concerns about the tree cutting and the scope of the project; wants names of those on the design committee and the Mesa Park board; concerns over the bidding process on the jobs.

[Charles] It is a county requirement that the eucalyptus be removed. They will be pollarded to bush out & serve as a buffer while natives are planted and grow, after which the eucalyptus will be removed. The land was donated as one parcel. We have not received public funding for the park. Rodger Peacock is project managing construction and is responsible for selecting subcontractors. The work will be done in phases to avoid over-commitment. I'd like to see most of the work go to local people. We will be fund-raising.

[Alethea] I can clarify. The duplex house was part of the hill prop. on one parcel; the flat parcel is in two parts. The park must meet all ADA requirements, there is drainage needed, public bathrooms, etc. which are all expensive. We're hoping for a lot of volunteer labor.

Vic: Can the donor claim the property back if he doesn't like what's going on?

[Charles] You should talk with Jack Siedman about that.

Bill Lyons: Is the contract a public document?

A question was raised as to whether the donor can reclaim the land if either the balance of the money cannot be raised or he doesn't like what's done in the design.

Vic reminded the board about the audit.

Will Richards: Asked if the treasurer received his invoice. She did.

Dog litter at the playground: Alethea suggested a doggie-bag dispenser.

**DOWNTOWN PARK-status:**

Roger Peacock agreed to attend all the board meetings; spoke about the payments to subcontractors & setting protocol for submitting invoices. He has the contract form written which he will send to the treasurer for approval. He also talked about having a notification board with weekly work; he'll send you the information and the board will publicize it. He met with PG&E about underground electrical. There's a pole in front of Sam's that will work to run lines. The agreement with the bathroom supplier has been signed. This is just for the pre-engineering work to run all the lines etc. to within 5' of the building. The units will then be set down on the prepared concrete pad. The bathroom supplier was fine with the new contract, which starts the process so we don't have to wait another 3 months. This first phase is going to connect the pad to the sewer, lines, etc. We'll come right up to the side-walk and then leave the rest of the connecting for phase 2.

[Charles] Is the park going to require any fill? Alethea: We're going to take some of the topsoil and stockpile it for our needs

but we may have some additional needs. [Charles] I might be able to get some fill from the stored dirt from the Terrace Ave. job. Roger: We'll know within 2 weeks what we're going to need. The landscaping design drives the needs. There were 3 water Meters & 3 sewer connections. We've set priorities. There are decisions to be made for each phase. Three contractors looked at it; we decided to work with Rob Poole who does a lot of work out here. He's going to start this work doing trenching, exploration, etc. He'll check out the sub-soils. What we've been doing this last month is "value engineering", having the guys look at it and make suggestions for ways to save money. Rob Poole will begin this week, move some equipment in, put up barriers; access will be the gate next to Bustamente's old office. Janine: I believe it's important that the landscaping of the hillside be done carefully. It's the frame of the park. Aletha: Jetta Foreman who works for a non-profit, is doing a project with the school to plant baby oak trees on the hillside. I don't know if that's possible or not. [Charles] It would be nice if there could be a planting detail plan was drawn up and we could cost it out. We want the hillside to be beautiful and support local wildlife.

**MAINTENANCE REPORT:** [Suki not present] [Bryan] There's an agreement for the Ghilottis to use the field to store soil from the Terrace Ave. work. [Charles] Team Ghilotti is doing the work on 13 Curves and we may get the ground asphalt. The foreman of the Terrace Ave. job said that there will be left-over grindings, so that's a possibility, if they want a simple contract. Jennie: I wanted to follow up on the possibility of there being old irrigation pipes on the soccer field. [Bryan] We've checked & there doesn't seem to be any, but we have a new irrigation project coming along to fix the field. The soccer players have moved the goals over to the old baseball field. We're hoping the Terrace Ave. job will be done in about 6-8 weeks. Then the field repair and growing of the new turf will take another month or 2.

**SIGNAGE @PARK-solutions: no decisions**

**POOL DEVELOPMENT-**The information presentation evening and dinner has been planned for Oct. 30<sup>th</sup> at the Bolinas Community Center.

**IRRIGATION PROJECT-** [Bryan] We're in the public comment period which ends 9/30, then the PBUD will adopt. The State gave us a 3-year extension, which was a great help. We hope to get it done next year. There will be a general project manager who will handle all these issues once the project gets started.

**TREASURERS REPORT-status**

[Patricia] The only big thing is that I moved the money for DT park out of checking into savings and just moved \$80K back into checking to cover work scheduled for the next couple months. Other issue of note is the new Morgan-Stanley account with the \$750,000 donation. If we need it transferred to a bank, it can be done through them. I need to consult with Jack Siedman and Christine Cunha about the best way to handle this. It would be good to know the status of the park and if the donor has placed conditions concerning financing.

**OTHER:** Shari suggested that it would be good to have a binder to list all the projects, the board members, etc.

[Patricia] I'm working with Christine to make pdf files of all this, and that will be posted. [Bryan] The project manager should be supplying that paperwork in a binder to make available at public meetings.

**Approve Minutes of Last Meeting**—Patricia moved to accept, and Bryan seconded. Approved unanimously.

**Approve Warrants**—Jane moved to approve, Bryan seconded. Passed unanimously.

**Schedule Next Meeting, (October 10<sup>th</sup>) 7 pm**
